FACULTY OF ARTS & SCIENCE
Teaching Assistant – CUPE 3902, Unit 1
September 1, 2024 – December 31, 2024

STA313H1F L0101 - Data Visualization

An introduction to data visualization and the use of visual and interactive representations of data to support human cognition. This course covers visualization techniques and algorithms based on principles from graphic design, perceptual psychology, cognitive science, and human-computer interaction. Topics include: graphic design, interaction, perception and cognition, communication, and ethics. Computational tutorials involve design review, implementation, and testing of information visualizations.

Delivery Mode: In-Person

Qualifications

Required Qualifications:

- Strong skills in R and/or Python
- Strong skills and experience in visualization libraries in R and/or Python (e.g. ggplot (advanced), Shiny, Plotly, Seaborn/matplotlib (advanced))
- Previous teaching experience
- Able to participate in training sessions throughout the term with course instructor

Preferred Qualifications:

- Experience with other visualization software/libraries such as Tableau and D3.js
- Previous teaching experience in related course(s) (e.g. STA313, JSC270/370, CSC318)
- Successful completion in advanced related course(s) (e.g. CSC2537/STA2555, HAD5014, INF451)
- Experience assessing written reports, verbal presentations, and/or group projects

Relevant Criterion

Previous experience is the more relevant criterion than the need to acquire experience in respect of this posted position.

Duties

Duties are in person unless otherwise indicated and will include any or all of the following:

Preparation for classes, preparation of written or audio-visual materials, designing and maintaining course websites, attending lectures, running tutorial sessions, facilitating and evaluating student engagement on online discussion boards, participating in training sessions, meeting with the instructors, teaching, leading discussions, and supervising laboratories, rating students' work, holding office hours, consulting with students (including electronic consultation), writing and grading tests, examinations and lab sets, grading essays and term papers, invigilating midterm and final exams, setting up experiments, conducting field trips, and conferring with the supervisor in charge, as required by the employee's teaching duties.

Duties of this position shall be performed on the St. George Campus.

Statistical Sciences UNIVERSITY OF TORONTO
